

GAS SHORTAGE HITS CLEVELAND

Cleveland, O. June 15.—Because of shortage, the Ohio Gas company last night notified the city council it is not in a position to enter into a contract for supplying natural gas for any fixed period, and suggested that natural gas be discontinued at the expiration of the present contract.

The local franchise expires February 28, 1921. It is believed the company's announcement will also apply to 22 other northern Ohio cities.

WELL BLOWS IN AT SIPE SPRINGS

Sipe Springs, Texas, June 15.—Luck No. 2 of the Atlantic Producing company, three miles north of here, blew itself in at 5 o'clock Monday morning and is flowing by heads of one hour duration, with 30-minute intervals. The top of the day has only been scratched at a depth of 2531 feet and the oil is coming up through the 10-inch casing with considerable gas pressure. From tests made this afternoon it is estimated that the well when drilled in will be good for from 350 to 1200 barrels or possibly better. Much interest is manifested here over the well, owing to the fact that it is now showing for a much larger producer than any yet drilled in this district and being on the eastern edge of the present pool indicates that the real pool is at last discovered. Several locations were made near the well Monday afternoon when it became known that the well was really a good one.

AMARILLO CONCERN WILL DRILL EAST OF PYOTE

Pyote, Texas, June 15.—The Guaranty Oil Lease association, of Amarillo, announces that contracts have been let for drilling two wells on their holdings in block F, Gunter & Nansen land, east of Pyote. The Amarillo Petroleum company are the drillers. It is understood material will be hauled from Pyote to the location this week. Material for two derricks for the Brooks-Turner syndicate also has been unloaded at Pyote. They report that one of the derricks will be located on the T. B. Jones ranch, north of Pyote, and the other in block O, of the Gunter & Nansen survey, east of town.

BELL-REEVES TO GO DEEPER

Pecos, Tex., June 15.—Plans are being made in Pecos to push down the Bell-Reeves beyond the 1800 foot mark if necessary to get oil due to the favorable showings of the past few days, when a strong odor of gas has been apparent. The money for this would come from a community fund, pledges for which are now being taken by some of the oil men, according to the Pecos chamber of commerce.

CONTRACT TO DRILL ON CULBERSON CO. PROPERTY

Toyah, Tex., June 15.—It is announced that a contract has been let for a deep test on the C. O. Finley property in section 22, school block 34, Culberson county.

The Parker and Hancock syndicate which has a contract for a deep well on section 11, block 24 public school lands, Reeves county, spudded in Thursday, starting with a 15 inch bit.

Miss Katherine Howard, director of the Women's Saving Account Division of the United States treasury, will teach women how to save money and will attempt to keep account of all the pennies saved by all the women in the United States.

Frightened by Burglar, GIRL JUMPS OUT WINDOW

The home of Mrs. Benjamin Powell at 2213 Montana avenue was entered by a burglar early Monday.

Miss Marion Powell, 16 years old, was awakened by a flash light shining in her face. She feigned sleep, and as the intruder turned to search her room, Miss Powell jumped through an open window and went to alarm neighbors. As she left the house, the burglar walked out the rear door.

Later it was discovered he had cut the electric wires in the house, probably in the belief that they were the telephone wires. He also had taken the precaution to prop open the doors to facilitate escape.

ACROSS THE street.

AND ON the corner.

WHERE THE wind comes 'round.

PAST THE Auditorium.

AT THE Chicago convention.

THE SAME blind man.

WHO HAS always been there.

IT SEEMED to me.

STILL STOOD out there.

AND THE other day.

I SAW him come.

WITH THE little white dog.

AND THE tightened leash.

AND THE dog in the lead.

AND UNDER the arm.

OF THE old blind man.

HIS FIDDLE box.

AND THE little dog stopped.

WHERE HE always stopped.

AND SO did the man.

AND HE got his fiddle.

AND TUNED it up.

OR WHATEVER it is.

THAT FIDDLERS do.

WHEN THEY monkey around.

WITH THE little doodads.

THAT THE strings go round.

AND THEN he played.

AND MEN went by.

AND WOMEN went by.

AND SOME of them stopped.

AND DROPPED their coins.

AND I dropped mine.

THE SAME as I did.

FOUR YEARS ago.

AND THEN went on.

AND WITHIN an hour.

I WAS back again.

AND THE wind still blew.

AND THE old blind man.

PACKED UP his fiddle.

AND COUNTED the coins.

AND PUT them away.

AND HELD to the leash.

AND THE little white dog.

LED THE way again.

AND LATER on.

IN THE Congress lobby.

WHERE ALL roads lead.

AND DELEGATES come.

AND MILL around.

AND ASK each other.

WHAT EACH other knows.

AND WISE men admit.

THEY KNOW nothing at all.

AND OTHERS look wise.

AND WOULD have you believe.

THAT THEY know it all.

IT OCCURRED to me.

THAT IT would be good.

IF THERE might appear.

WITHIN THE ranks.

OF THE O. P.

A LITTLE white dog.

THAT WOULD be as true.

IN ITS leadership.

AS THE little white dog.

OF THE old blind man.

BUT, OF course, there won't.

AND EVEN if there did.

WE WOULDN'T be as sure.

HE WAS going right.

AS IS the old blind man.

OF HIS little white dog.

I THANK you.

They Have Found the Way to Beautiful Teeth

All Statements Approved by High Dental Authorities

Dental science has found a way to combat film on teeth. It has been tested for years by able authorities in clinical and laboratory tests. Now leading dentists everywhere advise its daily use.

The method is embodied in a dentifrice called Pepsodent. This week we offer a 10-Day Tube to every home in this city, and we urge every home to get it. Let it prove itself.

Film is What Discolors

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays. The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So it accumulates and may do a ceaseless damage.

Most tooth troubles are now traced to that film. And now it is known why brushed teeth still discolor and decay. The reason lies in that clinging film which the old cleaning methods omit.

Cause of Decay

That film is what discolours—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus the film is the teeth's chief enemy.

It Can Be Ended

Dental science has for years sought a

way to end that film, and the way has now been found.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

The way seems simple, but it is not. Pepsin must be activated. The usual method is an acid harmful to the teeth, so pepsin long seemed impossible. What has been found is a harmless activating method. Now pepsin can be applied twice daily and left between the teeth. And millions of teeth are now being cleaned as they never were before.

Watch the Effects

We ask you to watch the effects. Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare this method with the old. Read the facts about it. Then decide for yourself what is best.

Tartar and Stain

are based on film. This 10-Day Test will show you that they are avoidable. And so is tooth decay.

Look in Ten Days

See how white the teeth are—how they glisten. You can see that the film is gone. You will know that teeth can be kept forever whiter and cleaner and safer.

Vacation Cats To Be Hunted Down In N. Y.

New York, June 15.—Plans to rid this city of thousands of cats, forced into vagabondage by the summer absence of their owners, were announced today by the department of health, which will be aided in the anti-cat crusade by the society for the prevention of cruelty to animals. The department it was also announced, will conduct a crusade to exterminate rats, particularly from incoming ships, as a preventive against bubonic plague. The hold of every incoming ship will be fumigated with cyanide gas, it was said.

TURN OVER DOPE SUSPECTS.
